

VinaLiving Property Centre in Ho Chi Minh City

VinaCapital has set up property centre for its residential developments sales brand VinaLiving in Ho Chi Minh City.

Located at 120 Pasteur Street in District 1, the two-storey centre comprises VinaLiving project information and project exhibitions as well as a customer lounge and many other specialised areas of interest. Visitors to the centre will have the support from the on-site VinaLiving professional consultancy team.

VinaLiving will also introduce large size touch-screen installations in the centre, which will allow customers to interact directly with VinaLiving projects. These will give viewing access to details such as floor plans, locations, exterior and interior design, and the chance for the customer to be creative and design their own rooms by arranging the furniture in their dream home.

VinaLiving is Vietnam's first lifestyle and tailored-living brand that caters to the new generation of Vietnamese homeowners. VinaCapital, one of the leading foreign real estate developers in Vietnam, backs VinaLiving homes and communities.

VinaCapital has experience and developments in a vast range of residential, retail, hospitality and mixed-use projects across Vietnam. VinaCapital's real estate developments are further strengthened by its relationship with VinaProjects, a specialist real estate services company that offers international-standard project management, construction management and urban planning services.
